The Class

I have developed a method to teach my fly patterns to intermediate and advanced tiers. Tiers will tie along with me and learn to tie new innovative flies and tying methods. I use a video camera projection system to project an image on a screen, wall or big screen TV. My guests tie along with me step by step as they view the screen behind me imagine a 10 ft caddis a tying image in all the detail. After I tie a step, I wait for everyone tie the step before moving on. We will tie some of my newest innovative patterns. They see each step on the screen and duplicate it with their own tools tying along with me with my live instruction. They can ask questions and receive advice on each step. **TYERS should have a basic knowledge of FLY TYING. We tell great stories and teach you how to fish these super patterns .**
